# KARTELL BIO

Our ongoing research and innovation in industrial processes have enabled our design to be produced with a biopolymer made from renewable raw materials, derived from non-GMO agricultural waste not intended for the food chain.

The product contained in this packaging meets the sustainability requirements highlighted in the "Kartell loves the planet" manifesto and conforming with UN 2030 Agenda for Sustainable Development. The product has obtained international TÜV Austria certification with the maximum star rating and, as a designer product, will only gain value over time.
