GREENGUARD CERTIFICATIONS

RECYCLABILITY

Recyclability, sustainability, eco-compatibility - in a nutshell, respect for the environment - these are the themes which the world community takes very much to heart.

It may seem absurd to talk about environment in terms of productions having plastic materials as their common denominator. Nevertheless, contrary to common belief, Kartell products are perfectly recyclable. To simplify the recycling process, in fact, the various components of Kartell products can be easily separated out and traced back to their single material elements. The plastic parts of each product also bear clear identification markings in accordance with the DIN 6120 specification, part 2, just so that they can be correctly identified and to facilitate recycling.

PACKAGING

All product packaging (paper, cardboard and plastic wrap) is 100% recyclable according to local recycling practices.

Contributing to environmental sustainability means avoiding waste and improper waste disposal.

For more information on the recyclability of each product, please visit www.kartell.com

DIN 6120 PART 2 RECYCLING SYMBOLS

The code within the logo identifies the compound in accordance with the following table:

01	02	03	04	05	06	07
PET	PE-HD	PVC	PE-LD	PP	PS	O

CERTIFICATION GREENGUARD

GREENGUARD

In its continuing commitment to protecting its customers' health, Kartell obtained Greenguard certification for its products in 2014.

When purchasing a Greenguard-certified product, consumers can be certain the product has been inspected, does not pollute and is not dangerous.

Greenguard is used by many certification processes for environmentally-sustainable buildings (LEED; CHPS; ASHRAE; Green Globes; NAHB; IgCC, CONSIP) around the world.

GREENGUARD: CERTIFIED CATEGORIES

All Kartell products that have received GREENGUARD certification are featured on the UL SPOT website. <https://spot.ul.com>

GREENGUARD CERTIFIED PRODUCTS:
